

## UACS Capabilities — Built for Public-Sector Outcomes

Managed Services • Secure Cloud • Cyber Security • Vision Zero AI  
 Serving State, Local & Education (SLED) Agencies — Built for mission uptime, safety, and public trust

### CAPABILITY SNAPSHOT

#### Core IT & Lifecycle Governance

Stabilize and govern mission-critical environments with full lifecycle accountability and operational discipline.

#### Secure Cloud & Cyber Security

Zero Trust design, migration, and risk reduction aligned to strict public-sector expectations.

#### Vision Zero Engine & 3D Spatial Intelligence

Ouster Gemini perception AI, Privacy by Design (facial recognition-free), and real-time 3D spatial awareness.

### SLED PRIORITY FACILITIES & ZONES

Critical Logistics & Transit • Intelligent Public Safety • Judiciary & High-Security • Public Utilities • Campus Safety

### CAPABILITIES OVERVIEW

#### Application Stewardship & Managed Services

Long-term application stewardship, operational stability, and accountable service execution for SLED agencies.

#### Private & Hybrid Cloud (VMware, Nutanix, Azure Stack HCI)

Assessments, migrations, Zero Trust architecture, and vulnerability governance for counties, districts, and agencies.

#### Vision Zero Engine & Perception AI

Vision Zero Engine with Ouster Gemini perception AI, 3D spatial intelligence, and Privacy by Design (facial recognition-free).

#### Systems Integration & Modernization

Integrate platforms and data flows across state, county, and municipal systems; reduce silos; improve readiness.

#### Program & Delivery Governance

Structured delivery, documentation, and change control aligned to public-sector realities.

#### VAR / Supply Chain & Fulfillment

Sourcing + staging + delivery coordination to keep projects on schedule.

### OPERATIONAL USE CASES FOR SLED INFRASTRUCTURE

#### Critical Logistics & Transit Infrastructure

Secure network foundations and 3D spatial visibility for resilient transit hubs, ports, and logistics operations.

#### Intelligent Public Safety Corridors (Vision Zero)

Vision Zero AI-enabled traffic analytics and Ouster Gemini perception for safer corridors nationwide.

#### Judiciary & High-Security Facility Defense

Govern access, deploy intelligent perimeter defense, and reduce operational risk at courthouses and secure facilities.

#### Critical Public Utilities & Infrastructure Resilience

Resilient cloud infrastructure and security controls supporting water, power, and municipal service continuity.

#### High-Traffic Public Spaces & Campus Safety

FERPA/privacy-compliant spatial awareness for campuses, parks, and high-traffic public spaces (facial recognition-free).

### PARTNER ECOSYSTEM

MBE | DBE | WOSB | SWaM Certified — Streamlined SLED Procurement

Microsoft • Dell • Lenovo • HPE / Aruba • Palo Alto • Sophos • Ouster LiDAR • Blue City

## Nationwide SLED — Mission-Ready Modernization

One accountable integrator across IT, cloud, cyber, AI sensing, and procurement execution for state, local, and education agencies.

MBE | DBE | WOSB | SWaM Certified — Streamlined diversity procurement for every jurisdiction.
