

UACS as a VAR — Procurement-Ready Technology Delivery

Intake & Sourcing • Pre-Deployment Staging • Secure Logistics • Final Acceptance

Serving SLED Agencies Nationwide — Built for Speed, Transparency, and Accountability

CAPABILITY SNAPSHOT

Phase I — Intake & Sourcing: Rapid order verification, RFQ processing, auditable sourcing paths, and transparent quote-to-order execution.

Phase II — Pre-Deployment Staging: Asset tagging, custom imaging, baseline security configuration, and full QA before release.

Phase III/IV — Secure Logistics & Final Acceptance: Tracked telemetry, tamper-evident transit, spec verification, and delivery sign-off with clean audit records.

SLED PRIORITY SECTORS & ENVIRONMENTS

Transit & Logistics • Public Safety • Judiciary & Law Enforcement • Utilities & Infrastructure • Public Spaces & Campuses

WHAT PROCUREMENT GETS

auditable transparency + lifecycle accountability

Auditable Transparency: Clear sourcing paths, lead-time visibility, and clean invoicing

Lifecycle Accountability: Responsibility from staging through post-delivery support

Inventory Control: Asset tracking to support audits, compliance, and lifecycle management

Deployment Support: Warranty management and ongoing vendor coordination

PRODUCT CATEGORIES

master-contract ready

Compute & Data Center: servers, storage, virtualization platforms

Network: switching, routing, wireless, edge connectivity

Security: firewalls, endpoint protection, monitoring/response integrations

End User & Office: laptops/desktops/workstations, monitors, printers/scanners

Power & Continuity: UPS, batteries, infrastructure readiness accessories

OPERATIONAL USE CASES FOR SLED INFRASTRUCTURE

Critical Transit & Logistics: Rapid sourcing and staged delivery for transit authorities, fleet operations, and logistics hubs.

Intelligent Public Safety: Procurement and delivery for municipal corridors, communications networks, and first-responder systems.

Judiciary & Law Enforcement: High-security handling and chain-of-custody delivery for courts, evidence systems, and justice facilities.

Critical Public Utilities: Staged, pre-configured delivery for water, power, and infrastructure resilience across distributed sites.

Public Spaces & Campus Safety: Procurement support for high-traffic venues, school districts, and campus connectivity/security systems.

PARTNER ECOSYSTEM

Compute & Storage

Dell | HPE | Lenovo | EMC | Nutanix

Network & Cyber

Palo Alto | Check Point | Sophos | Juniper | Aruba | Barracuda

Enterprise Platforms

Microsoft | Oracle | ServiceNow | PeopleSoft

Infrastructure & Power

Ouster | APC | Eaton | ViewSonic

Certified MBE, DBE, WOSB, & SWaM | Master-Contract Procurement for SLED Agencies
