# WHY SHOULD YOU MIGRATE FROM WINDOWS SERVER 2008 TO WINDOWS SERVER 2016/2019 ON HPE PROLIANT GEN10 SERVERS?

Hewlett Packard  
Enterprise

Microsoft

## FIGHT CYBER CRIME

The risk of being a victim of cyber crime continues to rise; organizations need a comprehensive - in budget - plan to secure their data center.

## IMPROVE IT EFFICIENCY

Legacy systems lack the power and flexibility to economically meet current IT needs. HPE Gen10 Servers with a current version of Windows Server enable customers to do more with less.

## READY FOR THE CLOUD

Whether migration to the cloud is imminent or in the future, a current version of Windows Server + HPE Gen10 Servers provides the best of both worlds to take advantage of cloud services without delay.
